The 7th International Conference on Signal Processing and Intelligent Systems (ICSPIS 2021) will be organized by the Iran University of Science and Technology (IUST) in co-operation with the Permanent Secretariat of ICSPIS. The conference will be held virtually from 29 to 30 December 2021. The ICSPIS 2021 is programmed with the aim of extending the technical knowledge to provide a forum for exchanging technical and scientific findings, presenting the latest research results, and encouraging the participation of researchers. During the conference, workshops and tutorials, exhibitions and industrial panel discussions will be held by intellectuals and experts in academia, industry and related organizations.

This conference, with the aim of benefiting from the experiences and creating a suitable context for increasing content richness in this field, has the readiness to attract scientific and research papers of experts in the form of the below mentioned topics. All interested persons are invited to submit their papers to the conference in accordance with the guidelines for the preparation of the papers and the following timetable.

Topics of Conference

- Signal Processing
- Audio and Speech Processing
- Image and Video Processing
- Machine Vision
- Remote Sensing
- Pattern Recognition and Analysis
- Data Mining
- Soft Computing
- Intelligent Systems
- Smart Computer Networks
- Smart Grids
- Internet of Things

Important Dates

Submission Deadline: Oct 7, 2021

Workshop Proposal deadline: Nov 6, 2021

Workshop Admission Announcement: Nov 20, 2021

Notification of Acceptance: Nov 22, 2021

Registration and Submission for Final Version: Dec 6, 2021

Conference Date: Dec 29 and 30, 2021
